

Wire Tong Band For 3 in Pole

By Chance Lineman Tools & Equipment
Catalog # [M17292](#)

Wire Tongs have many applications for moving and holding live conductors clear of the working area, for flat crossarm and/or ridge pin-construction, on horizontal post insulator structures, all types of suspension insulator lines, as auxiliary arm braces, and in EHV construction for brace pole or ladder positioning guides. A whole family of clamps, attachments, saddles and lever lifts allow the wire tongs to be adapted specifically to the mechanical requirements of various maintenance jobs.

Features

- Two screws clamp band to wire tong
- Each screw is threaded into half of the band and engages a slot in opposite half
- This permits halves of the band to be separated by a sliding action without removing screws
- Hinge ring slides on band, allowing rotation of wire tong when tong is supported by rope blocks
- For positive insulation between rope blocks and live conductors, install band at least the minimum distance for voltage class

General

Diameter - Pole	3.0 in
EU RoHS Indicator	No
Style	Band; 3" (76 mm)
Type	Wire Tong
UPC	096359043706

*Representative Image

Dimensions

Dimensions	9 in x 5 in x 5 in
Height	5 in
Length	9 in
Length Metric	22.9 mm
Weight	1.75 lb
Weight Metric	0.8 kg
Width	5 in
