

Cotter Key Puller

By Chance Lineman Tools & Equipment
Catalog # [M445596](#)

This Cotter Key Puller is used to partially withdraw a ball-socket cotter key so that the insulator can be removed from another insulator hanger. This puller with its thin prong is preferred for prying out standard keys deeply set on long insulator strings.

Features

- Used to partially withdraw a ball-socket cotter key so that the insulator can be removed from another insulator hanger
- Thin prong design for prying out deeply set standard keys on long insulator strings
