

## Wire Tong Swivel For 2 in Pole

By Chance Lineman Tools & Equipment

Catalog # [M4745](#)

Wire Tongs have many applications for moving and holding live conductors clear of the working area, for flat crossarm and/or ridge pin-construction, on horizontal post insulator structures, all types of suspension insulator lines, as auxiliary arm braces, and in EHV construction for brace pole or ladder positioning guides. A whole family of clamps, attachments, saddles and lever lifts allow the wire tongs to be adapted specifically to the mechanical requirements of various maintenance jobs.

### Features

- Designed to prevent kinking of conductor
- By attaching swivel to left tong and the holding tong hooked into the clevis attachment, there is only one tong hooked on the conductor
- Clevis pivots to allow tongs to assume correct positions
- This avoids the kinking caused by two wire tongs hooked side-by-side on a conductor hooked into the clevis attachment
- There is only one tong hooked on the conductor, and since the clevis pivots to permit the tongs to assume correct positions, there is no kinking of the conductor.

### General

Diameter - Pole	2 in
Diameter - Pole Metric	50.8 mm
EU RoHS Indicator	No
Style	Swivel; 2" (51 mm)
Type	Wire Tong
UPC	096359048275

### Dimensions

Dimensions	7 in x 5 in x 6 in
Dimensions Metric	17.8 mm x 12.7 mm x 15.2 mm
Height	6 in
Height Metric	15.2 mm
Length	7 in
Length Metric	17.8 mm
Weight	1.5 lb
Weight Metric	0.7 kg
Width	5 in
Width Metric	12.7 mm
