

Tap Box

By Connector Mfg. Co. (CMC)
Catalog # [LWTE24-350-ON](#)

A Completely customizable solution to meet your specific application needs!

Features

- Key Options available but not limited to: Common configurations available for tight deadlines
- Available with CMC's unique lay-in feature mechanical bars, (Each lay-in connection has a removable "keeper" that allows conductors to be laid into the outlet, solving the problem of trying to bend large conductors in confined areas)
- Connectors included are fabricated from 6061-T6 aluminum alloy for conductivity and strength, fully tested to ANSI C119.4 for Class "A" connectors
- Cabinets available in aluminum, mild steel, and stainless steel
- Cabinets are available with oven cured powder coat polyester or can be ordered bare
- Available wall or pad mounted, all mounting hardware is 18-8 stainless steel
- Offered with removable swinging doors with stainless steel lift off hinges
- Separate pad lockable hasp for added security
- Available in single and double door configurations
- Available in single or three-phase options up to 6000A depending upon the required configuration
- Range taking mechanical connections
- Utilized for both overheard and underground services

- Knockout locations available for both top and bottom feeds
