

## Cathodic Protection

By Continental Industries (CI)

Regardless of the requirements, thermOweld® provides a wide range of cathodic-protection products for corrosion-control needs

### Features

- The thermOweld® process has been used to weld materials other than copper for electrical purposes, including
- Stainless Steel
- Galvanized Steel\*
- Columbium
- and more; see our catalog below

- \*When welding to galvanized steel it is recommended to resurface exposed bare steel
