

Ultrabond II Braid with 3/8" eyelets

By EMC

Catalog # [EM-2012-AU-250](#)

#6 AWG braided tinned copper wire with factory-installed eyelets with integral arms, 3" spacing, hole diameter 3/8"

Features

- One-piece eyelet with arms will not spin or rotate during installation
- Gas-tight crimp maximizes conductivity by reducing cold flow & corrosion
- Easily trimmed to the desired length with splicer's scissors, eliminates waste
- Simple design provides for easy, foolproof installation. Terminates like any standard connection.
- Flexibility allows movement of cable without loosening connections.
- Factory-Installed terminations provide maximum pull-out strength, no need to carry special tools.

- Pre-punched mounting holes are safer, eliminating the need to use a sharp instrument.
- Solderless termination
- Unique patented design.
