

Ground Wire Theft Deterrent System

By EMC

Catalog # [EM-TDS-18](#)

Theft Deterrent System, #4 tin solid copper wire with armored shielding factory-crimped every 8-10". System includes deep-creased staples.

Features

- * Installs from bucket or ground. * Staples may be installed by hand or using a staple stick. * Makes for low-profile installation. * Copper wire armor is galvanized steel. * Installed system makes copper theft very difficult compared to traditional methods using exposed or conduit-covered wire. * Reduces the cost of replacing stolen copper wire repeatedly at some locations. * Does not require special tools.
