Filter Box Fan 115 Volt 117 Cubic Feet Per Minute 5.6X5.6

The filter box fan is a cooling system for electrical enclosures. The fan acts as the air inlet while the exhaust grille is the outlet. One grille and filter are included with the fan. An additional grille and filter must be ordered separately for installation.

- Fan and grille are constructed of high grade steel
- Available in 115V or 230V
- High airflow and low noise operation
- Grille and filter can be removed and washed as needed
