

By-pass Stud/Stirrup

By FARGO
Catalog # [GH275A](#)

Stirrup, Accessory, Stirrup, Aluminum

Features

- Fargo stirrup posts are designed for ease of attachment of hot line taps or bypass clamps on various system components.
- The stirrup post's holes permit application on spades or terminals with Standard NEMA Spacing.
- The shoulder "button" on the end prevents the clamps or connectors from slipping off during installation.
- Not designed for Fault Current or safety grounding applications.
