

Saddle Clamp for EV charging cables

By Gleason Reel

Catalog # [DWR-SDL-D](#)

The Nylon 6 saddles are designed to support EV cables with an OD of 1.625 " to 1.75". Specially designed inserts grip the cable and keep it in place. Threaded inserts allow quick and easy install. Convenient handle allows for easier handling in overhead applications.

Features

- Made from UV rated Nylon 6 material
- Designed to meet UL 2202
- F1 Rated
- Removable inserts for different size cables
- Convenient handle for easier handling
- Multiple inserts to accomodate any cable from 1.25" to 1.875"
