

Behavioral Health Surface-Mount Analog Telephone (Keypad)

By GAI-Tronics
Catalog # 210-001BH

GAI-Tronics Behavioral Health series of rugged telephones are designed for use in environments where conversation privacy is desired but safety is a concern. The Model 210-001BH (Keypad) is ideally suited for installation in any area requiring the Americans with Disabilities Act maximum protrusion Depth of 4 inches (corridors, hallways, passageways) or on any flat surface. The unit's rear mounting plate provides telephone line access, eliminating visibility of, or access to, cabling. Additionally, the 210-001BH is secured with security hardware to prevent vandalism.
