Behavioral Health Flush-Mount VoIP Telephone (Keypad)

By GAI-Tronics
Catalog # 276-712BH

GAI-TRONICS Behavioral Health series of rugged telephones are designed for use in environments where conversation privacy is desired but safety is a concern. The keypad flush-mount handset model is equipped with a shortened, 12-inch handset cord to prevent the handset being used as a weapon. The cord is also short enough to prevent the possibility of strangulation. Its rugged design provides both quality and longevity. The model 238-003 enclosure can be used if surface mounting is more desirable. Adding an "AC" suffix at the end of either model will increase the handset cord length to 15 inches.

Features

- Stainless Steel Construction
- Embedded Browser (No Additional Interface Required) for Web Page Configuration
- Power Over Ethernet or External 24-48 V dc Supply
- SIP Compatible
- RJ45 LAN or WAN Direct Connection
