

Clean Phone® Analog Telephone (Wall-Mount) - UL

By GAI-Tronics
Catalog # 295-001W

The Clean Phone® Telephone's hands-free operation is ideal for clean room, clinical, or sanitary environments. Available in a flush-mount (295-001F) or wall-mount (295-001W) design, the Clean Phone® telephone can function in both standard or SMART operation mode. SMART (Self Monitoring And Reporting Technology) operation allows the telephone to be monitored for health and usage via our TMA software (purchased separately).

Features

- Two auto-dial numbers allow quick communication at the touch of a button.
- “Flash” button allows the Clean Phone® telephone to use features of a PBX system.
- Completely smooth front panel is sealed with an overlay that keeps the phone particulate-free and makes cleaning quick and easy.
- Auto answer option allows clean room personnel to answer calls without leaving their stations.
- Oversized buttons allow easy operation for gloved hands. Button function is clearly indicated.
- Password Protected Programming
- Two (2) programmable control outputs
- SMART Technology allows central health/activity monitoring via TMA software
- UL Listed
