

SP2 Page/Party® Interface

By GAI-Tronics
Catalog # 370-901

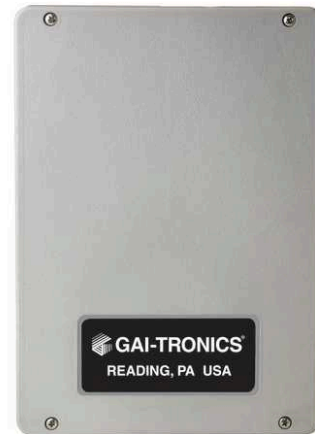

SP2 is one of GAI-TRONICS' most advanced paging and intercom systems. Combining the simplicity of "press to page, release to party" operation with cutting-edge multicast Voice over Internet Protocol (VoIP) technology, SP2 is capable of providing virtually instant communication in the most demanding of environments. With the SP2 to Page/Party interface it is possible for existing users of Page/Party and ICS equipment to add SP2 stations to their systems. The SP2 to Page/Party interface includes six independent 33Ω to IP multicast conversion circuits, allowing a single unit to interface a page line and up to five party lines.

Features

- Interfaces GAI-TRONICS [SP2 Stations](#) to Existing [Page/Party® Systems](#)
- Converts One 33Ω Page Line and Five 33Ω Party Lines to SP2 Multicast IP Channels
- Indoor Wall-mount Unit
- Configurable Isolate Function
- [Simple Configuration via GAI-TRONICS GUDA Software](#)

General

Color	Gray
Construction	High Impact GRP
Mount location	Wall-Mount
Temperature Range	+32° F to +122° F (0° C to +50° C)

Dimensions

Cubic Capacity	481 cu.in
Depth	4
Height	13 in
Width	9.25 in

Electrical Ratings

Supply Voltage	120/230 VAC
----------------	-------------
