

RED ALERT® VoIP Emergency Telephones, Retrofit Series - Ramtel; Model 397-710RT

By GAI-Tronics
Catalog # [397-710RT](#)

GAI-TRONICS' RED ALERT® Emergency VoIP Flush-Mount Telephones are designed to provide direct point-to-point communications between personnel throughout a facility over an existing internet protocol LAN. The Models 397-700RT and 398-702RT provide a plug-and-play upgrade to an existing Ramtel 6-hole telephone location with available Cat5E/6 cabling. The VoIP telephones are intended for connection to a 10/100 BaseT Ethernet and operate using power-over-Ethernet or an alternative power source. The VoIP telephone features real-time alarm reporting that enables system supervisors to monitor the phone's activity and address callers needs or maintenance issues immediately.

Application

Emergency Telephone Communications (campuses, parking lots, paths)

General
