

RED ALERT® VoIP Emergency Telephones, Retrofit Series - Talk-A-Phone; Model 397-710TP

By GAI-Tronics
Catalog # [397-710TP](#)

GAI-TRONICS' RED ALERT® Emergency VoIP Flush-Mount Telephones are designed to provide direct point-to-point communications between personnel throughout a facility over an existing internet protocol LAN. The Models 397-700TP and 398-702TP provide a plug-and-play upgrade to an existing Talk-A-Phone 6-hole telephone location with available Cat5E/6 cabling. The VoIP telephones are intended for connection to a 10/100 BaseT Ethernet and operate using power-over-Ethernet or an alternative power source. The VoIP telephone features real-time alarm reporting that enables system supervisors to monitor the phone's activity and address callers needs or maintenance issues immediately.

Application

Emergency Telephone Communications (campuses, parking lots, paths)

General

Color	Silver
