

DC Remote Deskset

By GAI-Tronics
Catalog # [IDR1000A](#)

The IDR1000A DC Remote Deskset provides radio system control from a remote location. Changes in DC current through a telephone line tell the remote adapter to control radio functions such as transmit, channel changes, and monitor.

Application

- Police, Fire, Ambulance
- Utilities, Taxis, Airlines
- Forestry, Parks, Recreation
- Industries, Municipalities, Construction
- Security & Public Safety
