Earthing Switches (GTMS-TE)

Por GTMS
No do catálogo GTMS-TE

GTMS can provide earthing switches for use with disconnectors or as stand-alone earthing switches. The GTMS earthing switches come as 3 phase, gang operated switches built to match the needs of the main disconnect switch. Adjustable controls allow simultaneous operation of all 3 phases. The switches are available from 15 kV to 550 kV, and 20 to 63 kA/1s.
