## Boom, Swivel

by CHANCE Utility  
Catalog ID: H1973H10

BOOM, SWIVEL, The medium duty Swivel Boom assembly is used on transmission structures to lift and move the insulator cradle and insulators into a convenient work position on the structure. The 3" round Epoxiglas®-horizontal boom and vertical mast are designed for 500 pound ratings when used in a steel tower configuration and 600 pound rating for wood pole assembly. An insulated link stick and a hoist are used in a diagonal position to lift the cradle full of insulators clear of the deadend strain poles and other obstructions.

### Product Details

#### General

Type	Boom
UPC	096359039624

#### Dimensions

Weight	61 lb
