

Wire Tong, 2-1/2" x 10'

by CHANCE Utility
Catalog ID: H464710

WIRETONG, 2-1/2 X 10', Chance Wire Tongs have many applications for moving and holding live conductors clear of the working area, for flat crossarm and/or ridge pin-construction, on horizontal post insulator structures, all types of suspension insulator lines, as auxiliary arm braces, and in EHV construction for brace pole or ladder positioning guides. A whole family of clamps, attachments, saddles and lever lifts allow the wire tongs to be adapted specifically to the mechanical requirements of various maintenance jobs. Chance Wire Tongs are made with Epoxiglas® poles. The castings are made of heat treated aluminum alloy, separated by bronze wear rings. The wide range jaws on the head can be clamped tightly on the conductor by turning the stick from a position beyond the minimum working clearances. A large head is available on two sizes of tongs where extremely large conductors are encountered.

Product Details

General

Duty	Standard Conductor
Storage Bag Included?	P621-10 (Bag not included. Must be ordered separately.)
Type	Wire Tong
UPC	096359040521

Dimensions

Length	120 in
Weight	24.5 lb

Conductor Related

Wire Size	.16" (4 mm) - 2.25" (57 mm)
