

MEDIMODE™ PowerHUBB

Multi-Function Recessed Patient Room Light enabled with PowerHUBB

POWERHUBB™
PoE LIGHTING & CONTROL

MediMode™ provides the primary lighting needs for the patient environment. The ambient/reading compartment provides low-glare, indirect illumination while the dedicated compartment for exam lighting delivers 100+ fc for critical examination functions. With PowerHUBB, MediMode provides fully functioning Power over Ethernet, (PoE) connectivity with simple integration of other input devices such as sensors, switch stations and other low voltage devices.

FEATURES

- Provides ambient/reading and examination illumination for the patient bed environment.
- PowerHUBB PoE Lighting and Control options provide low-voltage wired connectivity for Power over Ethernet network system deployment.
- Network connections can be made without opening the luminaire and remain accessible from below the ceiling.
- All compartments are lensed for visual comfort and ease of cleaning.
- An IP65 rated, full lensed door option further seals the luminaire for enhanced protection.
- The optical frame provides tool-less access to the electrical components for easy servicing.

SPECIFICATIONS

Construction: 20 gauge, one-piece CRS housing IP65 rated models have full-seam welded housing. Optional extruded aluminum door frame with nom. 0.125" thick clear acrylic lens.

Finish: The housing and reflectors are painted with polyester white powder coat with an antimicrobial additive to inhibit the growth of microbes.

Installation/Mounting: MediMode can be Grid (G) or Flange (F) mounted.

Light Source: The LED source is available in 3000K, 3500K, 4000K and 5000K CCT with standard >90 CRI, high R9 for excellent color rendering and optimal life > 60,000 hours at 80% lumen maintenance.

Electrical: Integral PowerHUBB nodes replace standard electronic AC drivers in luminaire. Nodes are programmed for optimized performance of the LED and allow bi-directional communication. Nodes provides dimming functions down to 1%.

Catalog Number	
Comments	Type

Switching: MediMode provides independent control of the ambient/reading, exam and optional night light functions. Switching options include network wall stations and/or a patient pillow switch (by others).

Certification:

- Built and tested to UL1598 standard and bears the cCSAus label for Wet Locations in covered ceilings
- IP65 rated per IEC 60598 (with the optional lensed door assembly).

Warranty: 5 year warranty. Please consult factory for details.
