

## Line Post Sensor - Current & Voltage

By Hubbell Power Systems  
Catalog # [PSC82012130](#)

35 kV Line post sensor capable of measuring current and voltage. Current Ratio is 600A:10V. Voltage Ratio is 10000:1. The sensor body is formed of cycloaliphatic epoxy material, which provides premium insulation while still being light weight.

### Features

- Current Ratio: 600A:10V
- Voltage Ratio: 10000:1
- 35 kV
- Low Energy Analog Outputs (LEA)
- Swing style keeper
- Lay-in groove and clamps for easy installation
- Grounding plate
