

Line Post Sensor - Current & Voltage

By Hubbell Power Systems
Catalog # [PSC82014140](#)

35 kV Line post sensor capable of measuring current. Current Ratio is 600A:10V. The sensor body is formed of cycloaliphatic epoxy material, which provides premium insulation while still being light weight.

Features

- Current Ratio: 600A:10V
- 35 kV
- Low Energy Analog Outputs (LEA)
- Swing style keeper
- Lay-in groove and clamps for easy installation
- Grounding plate

General

UPC 096359657095
