HUBBELL Power Systems

AIS-3 Air-Insulated Switchgear, 3 Phase, One Switch Way, Pad-Mounted

By Hubbell Power Systems Catalog # AIS-3

AIS-3: One Switch Way, 15 kV / 25 kV, 600 A, Adaptable

Features

- Air-Insulated Dead-Front Design: Enhances safety by minimizing electrical exposure and reducing maintenance and outages from vegetation or animal interference.
- Louvered Enclosure Design: Prevents unwanted gases and moisture from building up inside the enclosure.
- Strength and Durability: 11-gauge mild steel construction, and option to upgrade to 304-stainless steel for enhanced robustness.
- Maximum Visibility: 600 A switch position and fuse condition through large viewing windows.
- Built-in Base Spacing: Increases door clearance and reduces the need for additional base spacers.
- No center door support: Increases working area in cable compartments.
- Field-Replaceable Switch-Way Bushings: (200 A or 600 A), ensuring flexibility and convenience.
- Internal No-Drip Compound: No-drip compound that prevents moisture condensation under the roof.
- Fault Indicator Window: for easy mounting and viewing of common fault indicators.

General

Catalog Number Insulation Load Capacity Peak Current Type Weight Load Rating AIS-3 Air 600 A / 600 A Withstand (Asym) 41,200 A Air-Insulated • 875 lb.

*Representative Image

• 1,275 lb.

Dimensions
