

Liberty™ Three Phase Independent  
Phase Recloser

By Hubbell Power Systems

27kV, 150kV BIL, 800A, 16kA Three-Phase Independent Phase Recloser. The Liberty™ IPR consists of three vacuum fault interrupters with the maintenance-free benefits of a solid dielectric insulated device.

Features

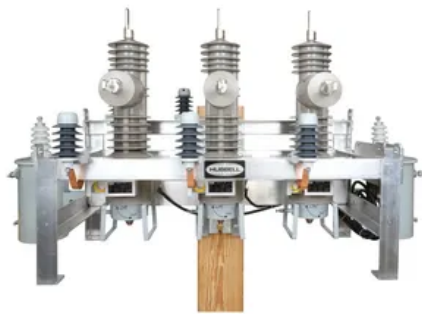

- Solid Dielectric Vacuum Interrupter Technology
- Integrated Sensing (6 Voltage Sensors and 3 Current Sensors)
- Semaphore
- Manual Operation and Lockout Handle
- Our One Hubbell site-ready solution offers an integrated solution consisting of controllers, cables, and switching devices assembled, configured, integrated, and tested ready to meet your needs

Application

The LIBERTY™ HB Independent Phase Recloser is a site-ready solution that can be customized to fit your application. The IPR is designed for three-phase fault interrupting applications

General

Ambient Temp. Range                    -40°C to 60 °C

Mounting Type	<ul style="list-style-type: none"><li>• Center mount</li><li>• Side mount</li><li>• Cross-arm mount</li><li>• Cluster mount</li><li>• Substation mount</li><li>• Phaser over phase mount</li></ul>
Type	Overhead Solid Dielectric Switches

Electrical Ratings

BIL	150 kV
Current Rating	800 A
Frequency Rating	60 Hz
