

EYD-0 - 4" EYD Seal Fitting

Aluminum, Female/Female

By Killark
Catalog # [EYD-0](#)

Killark's EYD drain sealing fittings offers options for installing in vertical positions for harsh hazardous locations where there is a probability that liquid or other condensed vapor may be trapped within enclosures or in the conduit raceway system. EYD series can make any sealing needs significant by offering a minimized turn radius for maximized installations. Options are available in copper-free aluminum and Duraloy iron with superior electro-statically applied powder coating for the best corrosive resistance.

Features

- Threaded for Rigid Conduit or IMC
- Tapered threads (NPT)
- Simplified installation
- Internal drainage path provides a visual means to ensure that the compound chamber is properly filled
- Temporary plastic sleeve protects thread for drain/breather from contamination when pouring compound
- Unique design enables installation of drain/breather right after compound is poured - no waiting
- Provides continuous water drain path while allowing conduit run to breathe, in compliance with the NEC
- Includes Drain Breather Fitting KDB-1

Application

To minimize the passage of gases and vapors from one electrical installation to another through the conduit system while offering a degree of ventilation and draining of condensation. To confine any explosions from sealed enclosures and prevent pressure pilling between conduit systems.
