## Features

- Cover o-ring supplied as standard for Type 4X and IP66 applications.
- Available in 4 configurations C, L, T & X with either 1/2" to 1-1/2" NPT taper threaded hubs providing ground continuity.
- Smooth integral hub bushing to protect conductor insulation when pulling.
- Also available in M20 through M50 metric sizes.
- External cover threads on the body protecting conductors from damages during pulling.
- No pinching of conductors during cover installation.
- Two terminal block manufacturers to choose from Weidmuller and ABB.
- Three options of terminal blocks to select from.
- One Internal and two external grounding (earthing) screws.
- Lugs on cover permits for easy removal and tightening.
- Box and cover are made of copper free aluminum.
- Electrostatically applied gray powder coating.
- Cover o-ring gasket material, Nitrile.
- Stainless steel tamper-proof locking set screw in cover.
