Type 3, 4

Tamb US -25°C to +60°C

Tamb Can. -50°C to +60°C

FEATURES-SPECIFICATIONS

Applications

- UNF/UNY unions are used to connect two pieces of conduit or attach conduit to junction boxes, fittings, or devices
- Permits removal of equipment without turning or removal of conduit

Features

- Unique design offers a compact size for lighter weight and smaller profile for critical clearances with equipment
- Extruded bar stock construction provides superior threads over sand cast and provides twice the tensile strength
- Uniform design across all sizes for aesthetic and robust appeal
- Made in the USA
- Male to Female union has nonremovable nipple to ensure tight seal with union and pipe/equipment
- Lighter weight puts less stress on the conduit support system

Materials

- Copper-free Aluminum
 - » (less than 4/10 of 1%)
- Steel
 - » Zinc electro plated
