LoadLocker Ammeter, Up to 500kV, 60 Hertz Unit

by CHANCE Utility
Catalog ID: MEAMP32RN

AMMETER LOADLOOKER, UP TO 500KV (60HZ), Instead of you manipulating a hinged or clamp-type inductive pick-up, the patented LoadLocker electronically closes the loop for you. Its unique U-shape jaw senses the amperage present between its tines. The open-end design lets you check loads on components not accessible by other hot-line ammeters. Live-line-ready hotstick mount A standard fitting on the LoadLocker lets it mount on your insulated hotsticks just as any other universal tool. Your hot-line crews can begin using it immediately, in compliance with prescribed safe-working clearances for your system voltages. Simple pushbutton operation, direct-reading accuracy A single button controls the operation. Push it once to turn on the LoadLocker. Push it a second time and LoadLocker will display the word HOLD and continue to display the next reading it "sees" until you push the button to clear it. This lets you bring it down from the line to eye level to read it. After five idle minutes, the unit will itself turn off or you can manually turn it off by keeping the button depressed for five seconds. A detailed Operators Manual and storage case are included with each LoadLocker.

Product Details

General

Duty	N/A
UPC	096359466512

Dimensions

Jaw Width	2.50"
Weight	3.038 lb

Electrical Ratings

Amperage - Display Range	0-200 Amp (0.1 Amp increments); 200-2000 Amp (1.0 Amp increments)
Amperage Rating	5000 A
Withstand Voltage	Up to 500 kV
