

Jumper Clamp Assembly

By OHIO BRASS
Catalog # [2721783001](#)

A practical application of Quadri*Sil® line posts is for support of jumper loops on transmission lines. Horizontal motion of the jumper is restricted and the factor of wind sway is eliminated. Additionally, the crossarm length may be reduced. The use of a jumper support improves construction.

Features

- Clamping Range 1.60 - 2.00 inches (41 - 51mm)
- Yoke Type - Triple
- Material: Clamps - aluminum alloy, Hardware - galvanized steel
- Clamps are not intended for tangent span application.

General

Accessory Type Jumper Assembly

Catalog Number	2721783001
Number of Sheds	1.60-2.00
Yokes	Triple

Logistics

Standard Package	1
