Power Systems

600 Series-Extender Panel Assy. 48" (pair)

By Polycast
Catalog # [DP0660](#)

The versatile design of the 600 Series allows for flow rates equal to or greater than most larger poured-in-place trench drains (470 GPM per outlet attainable with proper components). It is ideally suited for a variety of commercial and industrial applications. Optional Vinyl Ester channels are available for use in harsh chemical or high temperature applications. DIN Class A - D

*Representative Image
