

751 Series Catch Basin

By Polycast  
Catalog # [DP0751](#)

The Polycast Catch Basins are an important part of the versatile Polycast Presloped drain system. The catch basins are manufactured with the same high strength, corrosion-resistant polyester and Vinyl Ester polymer concrete used for Polycast drain channels.

Features

- Designed to be used at collection points, drain run transitions, and interceptors to collect solid debris.
- Designed to accommodate all drain channel sizes and to have cut-outs.
- Polycast catch basins have a selection of grates available for specific needs

General
