

# Neutral Grounding Resistors

By Powerohm Resistors

Powerohm Type NR Neutral Grounding Resistors are used in industrial power systems for resistance grounding of wye connected generators and transformers.

## Features

- Reduced overvoltages.
- Reduced equipment damage.
- Isolation of faulted circuit.
- Increased protection of transformers, generators and auxiliary equipment.
- Reduced operation/maintenance expense.
- Increase safety.
- Improved reliability.
- Reduced frequency of faults.

- Quicker fault location.
- Increased lightning protection.

## Certifications And Compliance

Industry Standard(s) CSA, ETL and UL.
