

## PR4410-4-CR | Allen Bradley Braking Resistor

By Powerohm  
Catalog # [PR4410-4-CR](#)

Allen Bradley Braking Resistor, 400 W, 237 Ohms

### Features

- The compact size of this unit makes it ideal for an installation where space is a premium
- Resistors can withstand extreme shock, qualifying it for nearly any high vibration application
- Resistors are suitable for intermittent and continuous duty applications requiring relatively high resistance and low wattage

### Application

Allen Bradley

### General

Enclosure Type	CR400
Resistance Ohms	237 Ohm

### Dimensions

Length	237 in
Weight	4 lb

### Electrical Ratings

Wattage	400 W
