Catalog ID: SSI-500

Flexible Rubber Covers for Insulating

- 600 volt compression splice connections including those subject to water submersion
- Suitable for direct burial. Ends have stepped sealing surfaces to accommodate a wide variety of conductor sizes.
- Maintains watertight integrity and full insulating value in all direct buried, underground networks, residential and overhead service joints.
- Taping is eliminated and splice preparation time is significantly reduced.
- Meets the performance requirements of ANSI C119.1, ANSI C119.4 and Western Underground Committee Guide 2.5.
