# TB150N005F4

by Acme Electric Catalog ID: TB150N005F4

ICT .150KVA 208,230,460 -115 F4

- Encapsulated design protects core & coil assembly from potentially damaging contaminants
- Constructed with high quality silicon steel lamination to minimize core losses and increase efficiency
- Integrally molded terminal blocks with isolation barriers to prevent arc over
- Fuse blocks kits available and easily adaptable
- Series-parallel connecting links save wiring and labor costs

## **Product Details**

General

| Application       | Acme's TB Series Industrial Control Transformers<br>are especially designed to accommodate the<br>momentary current inrush caused when<br>electromagnetic components are energized<br>without sacrificing secondary voltage stability<br>beyond practical limits.The transformer's<br>windings and internal terminations are encased<br>in a durable thermoplastic end cap, protecting<br>them from potentially damaging moisture, dirt<br>and other ambient contaminants. Acme's TB<br>Series transformers are dry-type, step-down<br>transformers with the secondary control circuit<br>isolated from the primary line circuit to assure<br>maximum safety. |
|-------------------|---|
| Color             | Black   |
| Secondary Voltage | 115 V   |
| UPC               | 047503009901  |

#### Dimensions

| Dimensions | 4.17 in x 3.75 in x 4.359 in |
|------------|------------------------------|
| Height     | 4.359 in                     |
| Length     | 4.17 in                      |
| Weight     | 4.2 lb                       |
| Width      | 3.75 in                      |

## **Electrical Ratings**

| Frequency Rating | 50/60 Hz      |
|------------------|---------------|
| Primary Voltage  | 208/230/460 V |

### Logistics

| Carton Quantity | 1   |
