

SmartBank™ Medium-Voltage Pad-Mounted Capacitor Banks

By Trinetics

5kV thru 35kV and KVAR ratings from 150 to 3600, medium voltage pad-mounted capacitor banks

Features

- Radial or loop feed
- 600Amp bushings / 200A bushing well
- Capacitors manufactured by Trinetics (or other major capacitor manufactures at customer request).
- Fixed (no switches) or Switched; using a wide variety of reliable Trinetics switches; CSD (Oil), VS (Vacuum under oil), UltraVac (Solid dielectric vacuum) installed and wired.
- Tilt out control power transformer mounting is standard.
- Capacitor fusing.
- Optional reactors (or provisions for future customer installation of reactors
- Optional arresters

Application

Trinetics pad-mounted capacitor banks are designed and built to meet or exceed ANSI/IEEE std 386-1985 or latest revision. They are outdoor, weatherproof and supplied fully assembled, ready for installation and connection to the utility system.
