Relay Rack Angle Half N12 72 Inch Freestanding 24X31.5 Carbon Steel - White

The WA-RP series half length rack mounting angle is designed for installing rack mounted equipment in a 72 x 24 enclosure. The rack mounting angle is used in all NEMA 12 freestanding enclosures.

- Fabricated from carbon steel
- Painted with white polyester powder

Fabricated from 10 gauge steel. Full-length or half-length rack mounting angles are available for mounting rack-mounted equipment. If used in two-door enclosures, a center panel support must be ordered. White smooth hybrid finish.
