

ACC-FF180

INTRODUCTION

Product Description:

The ACC-FF180 wire management clip is made of corrosion resistant 304 stainless steel, which makes them a durable, long lasting and reliable solution for all environments. The ACC-FF180 is easy to install and slides on either straight on or at 180 degrees to module frames of various thicknesses. This style clip can add extra protection in high vibration or movement environments by securing wires with openings pointed in alternating directions. The compact size makes this clip a perfect solution for shorter flanged panels with widths down to 12.0mm. The ACC-FF180 accommodates 1 to 2 PV cables up ranging from 5.0mm to 8.0 mm in diameter. The coined edges are designed to help protect cable insulation from damage. ACC-FF180 clips are the perfect solution for keeping the PV installation neat, clean, and free from ground faults.

Features & Benefits

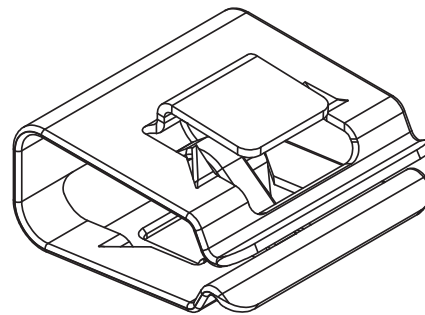

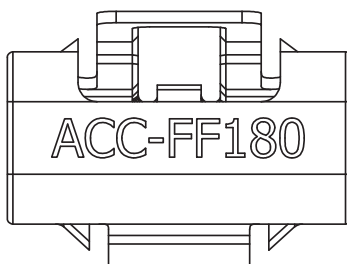

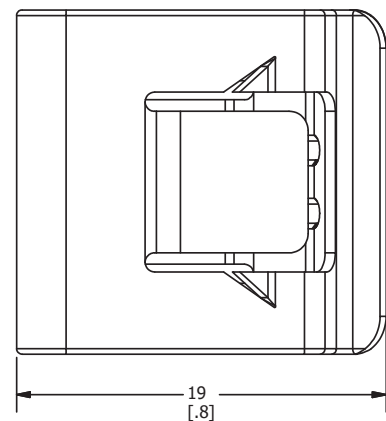

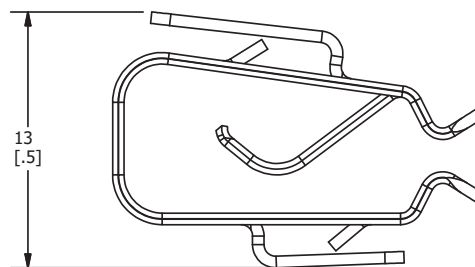

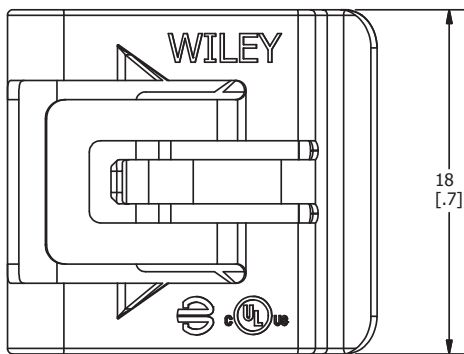

- Innovative design perfect for modules with flange width down to 12.0mm
- High quality, long-lasting, labor saving wire management solution
- Corrosion resistant 304 stainless steel provides outstanding durability and performance in all environments
- Compatible on modules/purlins with a flange thickness range of 1.0 to 3.0mm
- Installs Straight on or at 180 degree orientation
- Alternating installation option provides excellent protection in high vibration or movement environments
- Accommodates all types of PV cable ranging from 5.0 to 8.0mm per cable
- Considerate lead in for installation without tools
- Coined edges protect cable insulation from damage
- Lasts for the lifetime of the Solar PV system
- Recommended for outdoor use
- RoHS Compliant
- UL1565 Listed
- Environmentally Tested - UL2703 & ATSMB117

Product Specs

Product Number	50101391
Product Name	ACC-FF180
Product Description	2 Wire SS Dual Degree (Straight On / 180°) Module Clip
Material	304 Stainless Steel
Width	18mm
Overall Length	19mm
Wire Type	1 to 2 PV cables
Wire Diameter	5.0mm to 8.0mm per each wire
Orientation	Straight On or 180 Degrees
Flange Width	Down to 12.0mm

Compatible on modules/purlins with a flange thickness range of 1.0 to 3.0mm
