Kim Lighting reserves the right to change specifications without notice.

**FEATURES**
- PicoPrism® technology
- Family of six sizes
- Available in 580nm, 3000K, 4000K and 5000K standard CCT
- Type 1, 2, 3, 4, 5 standard distributions
- 0-10V dimming drivers standard
- IP66 certified

- 580nm

**Voltages**

- 120V
- 208V
- 240V
- 277V
- 347V
- 480V

**Wireless**

- WIR-RMI-IO
  - 120-480V, 1000’ range, wiSCAPE RF control system with on/off/dim, alerts, monitoring and metering capabilities

**Control Options**

- SCL-R: Round Pole Mounted Occupancy Sensor up to 16’
- SCL-S: Square Pole Mounted Occupancy Sensor up to 16’
- SCH-R: Round Pole Mounted Occupancy Sensor 16’ to 30’
- SCH-S: Square Pole Mounted Occupancy Sensor 16’ to 30’

**Motion**

- Sitesync with 7-pin PCR
- Sitesync Software on USB
- Sitesync Windows® Tablet
- Bridge Node

**Control Accessories**

- SW7PR
- SWUSB
- SWTAB
- SWBRG

**SiteSync Lighting Control**

- SiteSync Lighting Control is available from our most popular brands in a broad range of award-winning product families.

**Photocell Options**

- A25-7: 7-pin Photocell Receptacle
- A30: 120V Button Photocell
- A31: 208V Button Photocell
- A32: 240V Button Photocell
- A33: 277V Button Photocell
- A34: 480V Button Photocell
- A35: 347V Button Photocell

**Fixture Finish**

- BL Black
- DB Dark Bronze
- GT Graphite
- LG Light Gray
- LS Platinum Silver
- TT Titanium
- WH White
- CC Custom Color

**Fuse Options**

**NFO Option**

- Neighbor Friendly Optic

**Mounting Options**

- VSF: Vertical Slipfitter Mount for 2” pipe tenon, (2-3/8” O.D.)
- SVSF: Vertical Slipfitter Mount for 2” pipe tenon, (2-3/8” O.D.)

**Side Arm Mount**

- 3-4RD: 3.3” to 4.2” O.D. round pole
- 4-6RD: 4.5” to 6” O.D. round pole
- SQ: Square Pole

**SiteSync® Software**

- SWUSB
- SWTAB
- SWBRG

**SiteSync Lighting Control**

- SiteSync Lighting Control is available from our most popular brands in a broad range of award-winning product families.

**US Patent No. D674,965 S. Other patents pending.**

- 350mA only.
- Use only when vandalism is anticipated to be high. Required only for vandal protection in locations where fixtures can be reached by unauthorized persons.
- When ordering SiteSync at least one of these two interface options must be ordered per project.
- If needed, an additional Bridge Node can be ordered.

SPECIFICATIONS

Housing:
- Extruded low copper aluminum main body.
- Die-cast low copper aluminum electrical gear compartment.
- Stainless steel hardware.
- Die cast wall separates the optical and electrical compartment acting as thermal barrier.
- Electrical gear compartment doors are fastened with two hinges and a latch made of stainless steel.
- Silicone gaskets seal the compartments at the barrier surface.

Optical Module:
- PicoPrism® refractors (enclosed LED PCBs for IP66 rating) aimed toward the task and spreads horizontally to produce great uniformity.
- Type I, II, III, IV, V, L (left), and R (right) standard distributions. Custom available.
- 3000K, 4000K, 5000K standard CCT. Amber and custom available.
- IP66 certified.
- Die-cast, low copper aluminum heat sink modules provide thermal transfer at PCB level.
- Anodized aluminum carrier plate and heat sink modules.

Lens Frame:
- One-piece low copper aluminum alloy die-cast is secured to housing with two toolless latches.

Neighbor Friendly Optic
- Optional integrated Neighbor Friendly Optic on each LED module to completely control unwanted backlight. Most effective with Type III and IV distributions.

Lens
- One-piece flat glass lens slips into reveal. Extra silicone gasketing is provided to retain a clear optical compartment. CAUTION: Use only when vandalism is anticipated to be high.

Electrical Characteristics:
- Pre-assembled, aluminum gear tray.
- 120V through 480V @ 50/60Hz.
- Class 2, 350mA or 700mA drive current settings from 350mA to 700mA.
- Power Factor = >.90
- National Electrical Code, ANSI/NFPA 70.
- 10KV surge suppression.
- Thermal shield thermal control.
- >30c starting driver.
- 0-10V dimming interface.
- All electronic components are IP66 rated.
- Electronic components are UL and/or CSA recognized.
- Standard programmable driver for variable drive current settings from 350mA to 700mA.

Dimming:
- 10% to 100% dimming by the use of standard 0-10V interface driver.
- To activate the dimming system, a wiring harness is supplied and attached to the DIM Port (DIM IN) on the thermal shield protection system. This port allows the 0-10V Interface to bypass the thermal shield and control the driver.
- The thermal shield works in conjunction with the control system to assure that overheating will not harm the LEDs.
- The wiring harness is connected with the use of the Purple lead as the positive (+) and the Grey lead as the negative (-) to an available control signal (by others).

Support Arm:
- Speed Mount and a reinforcing plate are provided with wire strain relief.
- Speed Mount is square or circular cut for specified pole size and shape.
- Die-cast, low copper aluminum support arm for direct pole mount.
- Die-cast aluminum tool-less entry splice access cover.
- Terminal block is mounted in the arm cavity and accepts #14 to #8 wire sizes.
- Prewired to electrical module with quick-disconnect plugs located inside the electrical compartment.

- Optional cast, low copper aluminum horizontal slip-fitter with adaptor plate to secure the luminaire to 1-1/4” to 2” IPS pipe size arms.
- Optional cast aluminum wall mount plate assembly. Attaches to the wall over the junction box. Luminaire attaches to the wall plate with a square cut Speed Mount.

Finish:
- Fade and abrasion resistant, electrostatically applied, thermally cured, tricylglic isocyanurate (TGIC) polyester powdercoat.

Fusing:
- SF for 120, 277 and 347 Line Volts
- DF for 208, 240 and 480 Line Volts.
- High temperature fuse holders factory installed inside the fixture housing. Fuse is included.

Certifications and Listings:
- UL 1598 Standard for wet locations for Luminaires.
- IP66 certified.
- CSA C22.2#250.0 Luminaires.
- ANSI C136.31-2010 3G Vibration tested and compliant.
- RoHS compliant.
- Meets Buy American provisions within ARRA.
- IDA approved, 3000K and warmer CCTs only.

CAUTION:
- Fixtures must be grounded in accordance with national, state and/or local electrical codes, Failure to do so may result in serious personal injury.

WARRANTY:
- For full warranty see http://www.hubbellighting.com/resources/warranty
CONTROLS

Photocell Receptacle

A25-7

Fully gasketed and wired 7-pin receptacle option. Easy access location above the electrical compartment. 7-pin construction allows for a user-defined interface and provides a controlled definition of operational performance. ANSI twist-lock control module by-others.

Standard customer operation modes:
1. Traditional on/off photoelectric control.
2. 5-pin wireless photoelectric control for added dimming feature.
3. 7-pin wireless photoelectric control for dimming and additional I/O connections for customer use.

Button Photocell

A30 for 120V, A31 for 208V, A32 for 240V, A33 for 277V, A35 for 347V, A34 for 480V, A35 for 480V.

Photocell is factory installed inside the housing with a fully gasketed sensor on the side wall. For multiple fixture mountings, one fixture is supplied with a photocell to operate the others.

wiSCAPE™

Hubbell Building Automation’s wiSCAPE In-Fixture Module is a bi-directional wireless RF device that allows an individual fixture to be managed, monitored and metered. The wiSCAPE In-Fixture Module communicates wirelessly over a robust 2.4GHz ISM (Industrial, Scientific and Medical) certified meshed radio signal. The wiSCAPE Fixture Module drastically simplifies control and automation of projects, especially in retrofit environments, and challenges the legacy world of wired-systems. wiSCAPE wireless control technology easily adapts to complex automation situations for quick, simple and economical commissioning. The On-Fixture Module is compatible with A-25-7H option.

WIR-RMI-10

120 - 347V 1000 Foot Range WiScape RF mesh control system with off/on/dim, motion, photo, GPS location, alert, monitoring and metering capabilities.

Round Pole-Mounted Occupancy Sensor up to 16'

SCL-R

Round Pole-Mounted Occupancy Sensor up to 16' - an outdoor occupancy sensor with 0-10V interface dimming control that mounts directly to the pole. Wide 360° pattern. Module colors are available in Black, Gray, and White. Module is cut for round pole mounting. Pole diameter is needed upon order. Poles to be drilled in the field will be provided with installation instructions.

Ordering Example: SCL-R4/277/BL3

Square Pole-Mounted Occupancy Sensor up to 16'

SCL-S

Square Pole-Mounted Occupancy Sensor up to 16' - an outdoor occupancy sensor with 0-10V interface dimming control that mounts directly to the pole. Wide 360° pattern. Module colors are available in Black, Gray, and White. Module is cut for square pole mounting. Pole diameter is needed upon order. Poles to be drilled in the field will be provided with installation instructions.

Ordering Example: SCL-L/277/BL3

Round Pole-Mounted Occupancy Sensor 16' to 30'

SCH-R

Round Pole-Mounted Occupancy Sensor: 16' to 30' - an outdoor occupancy sensor with 0-10V interface dimming control that mounts directly to the pole. Wide 360° pattern. Module colors are available in Black, Gray, and White. Module is cut for round pole mounting. Pole diameter is needed upon order. Poles to be drilled in the field will be provided with installation instructions.

Ordering Example: SCH-R4/277/BL3

Square Pole-Mounted Occupancy Sensor 16' to 30'

SCH-S

Square Pole-Mounted Occupancy Sensor: 16 to 30' - an outdoor occupancy sensor with 0-10V interface dimming control that mounts directly to the pole. Wide 360° pattern. Module colors are available in Black, Gray, and White. Module is cut for round pole mounting. Pole diameter is needed upon order. Poles to be drilled in the field will be provided with installation instructions.

Ordering Example: SCH-S/277/BL3

SCP

The SCP is a photo-control with motion sensing accessory that mounts to the side of any new or existing 3”-5” round or square straight pole. The SCP enables any pole mounted luminaire in excess of 75 watts, to meet California Title 24 requirements with integral 20KV/10KA surge protection for added reliability and serviceability.
