NX: NX Sensors installs between diffusers.  
See separate [Control Options Guide](#) for additional details.

### Thru-Wiring:

See separate LC- Thru Wire spec sheet for additional details.

### Row Joining:

Row joining can be accomplished without disassembling the fixture, with the exception of power feed connection. Row joining can be completed from the top with two 1/4-20" head cap screws and 1/4-20" square nuts.

### Field accessibility:

LED boards and drivers can be accessed, removed, and replaced from installed fixture. Contact factory.

### Luminaire Canopy Box:

See separate [LC instructions](#) for additional details.

### SpectraSync™ Color Tuning Technology:

Control your space based on the needs of the application, specific activities throughout the day and preferences of the occupants with two distinct SpectraSync™ Color Tuning Technology.

Dim to Warm: Dim to Warm mimics the familiar warming effect that occurs with traditional incandescent sources as they are dimmed. (Available with 2200K-3000K).  
Tunable White: Tunable White offers users the ability to tailor CCT to their personal preference, enhancing task visibility, material and colors or the aesthetics of the space. (Available with 2700K-5000K or 2700K-6500K).

See separate [SpectraSync™ Tech Sheet](#) for additional details.  
See separate [NX™ Solutions Guide](#) for additional details.
